Raptor SR for DJI Phantom 3 Advance / Phantom 3 Pro [A124S]

nett price	119.00 \$
Availability	Always on stock
Product code	A124S
EAN	853854008612

Product description

- QuickAttach mounting system
- Adjustable tilt of the range extender
- Dedicated pigtails
- No drilling required
- No modification to the drone itself
- Long range extension without external boosters
- Design does not contain any removable parts
- Complete solution
- Controller NOT included

Dji Phantom 3 Advanced drone is a predecessor to its newer model Dji Phantom 4. The basic kit allows for 30 minutes of uninterrupted flight, maximum speed of 65km/h.

4Hawks antenna for Dji Phantom 3 Advanced & Pro models are operating in 2.4GHz with 9dBi gain and 5GHz also with 14dBi gain. Entire construction is 100% UV protected to assure longevity of the equipment. Additionally, part of the construction is made of aluminum to make the whole construction as light as possible. Mounting is made of stainless steel for rock solid stability.

Mounting the range extender is easy and doesn't require professional assistance. The entire set is lightweight and uniform (without any loose equipment pieces). Changing the direction of the antenna shouldn't cause any difficulties, as the system was designed in a way that allows quick position change with just a single "click" to 5 different positions. This way you can be sure that you do not lose the connection with your drone.

Extended Flight Range

Noise removal from other devices

Improved video signal

Adjustable signal direction
