## Product description

Features:

- Maximize performance
- WORKS ONLY ON 5GHz
- No modification to the drone itself
- Long range extension without external boosters
- Design does not contain any removable parts
- Complete solution
- Controller NOT included

Designed for drone enthusiasts, Dji Mavic Mini is perfect for holiday trips. Its long range and lond battery life allows its user to reach places that were earlier completely inaccessible, such as deep forests, canyons, lakes etc. The built-in camera allows recording videos in very good quality.
4Hawks antenna for Dji Mavic Mini US model is the stronges from all our antennas, operating in only 5GHz frequencie with 19dBi gain. The concept behind the look of the antenna was to make it look like it was a part of the drone by default. Entire construction is 100% UV protected to assure longevity of the equipment. Additionally, part of the construction is made of aluminum to make the whole construction as light as possible. Mounting is made of stainless steel for rock solid stability. Mounting the range extender leads to permanent changes with the remote controller. The entire set is lightweight and uniform (without any loose equipment pieces). Changing the direction of the antenna shouldn’t cause any difficulties, as the system was designed in a way that allows quick position change with just a single “click”. This way you can be sure that you do not lose the connection with your drone.

Extender Flight Range

Noise removal from other devices

Improved video signal

Adjustable signal direction
